Hugo Lavenant

Assistant professor at Bocconi University

GENERAL INFORMATION

Nationality	French
Languages	French (native speaker), English (professional proficiency), Italian (notions)
Address	Dipartimento di Scienze delle Decisioni Università Bocconi Milano, Italia
Email	`hugo.lavenant@unibocconi.it`
Webpage	`https://hugolav.github.io`
GitHub	`https://github.com/HugoLav`

RESEARCH INTERESTS

Broadly: calculus of variations (including optimal transport), elliptic PDEs and convex optimization. More specifically:

- harmonic mappings valued in the Wasserstein space (theory and numerics);
- use of optimal transport for the analysis of biological data;
- numerical methods for dynamical formulations of optimal transport and Mean Field Games;
- variational formulations of Mean Field Games and incompressible Euler equations.

POSITIONS

Assistant professor 2020–present
Bocconi University, Milan, Italy

Postdoctoral fellow of the *Pacific Institute of Mathematical Sciences* 2019–2020
University of British Columbia, Vancouver, BC, Canada

Using optimal transport to analyze biological data under the supervision of Young-Heon Kim, Brendan Pass, Geoffrey Schiebinger and Dave Schneider.

EDUCATION

PhD. in mathematics 2016–2019
Université Paris-Sud, Orsay, France

PhD entitled *Optimal curves and mappings valued in the Wasserstein space* under the supervision of Filippo Santambrogio.

Defended on May 24th, 2019 (committee: Y. Brenier, P. Cardaliaguet, Q. Mérigot, F. Santambrogio, K.-T. Sturm, D. Tonon; referees: P. Cardaliaguet, G. Savaré)

MSc. and BSc. 2012–2016

École Normale Supérieure, Paris, France

Studies in: Mathematics, Physics, History and Philosophy of science.

- (2015–2016) *Master 2* LOPHISS-SPH in history and philosophy of science, *summa cum laude*. Master thesis entitled *L'introduction du calcul des probabilités et de la statistique en France : l'exemple du* Calcul des probabilités à la portée de tous *de Fréchet et Halbwachs* under the supervision of Laurent Mazliak.
- (2014–2015) *Master 2* in mathematics on PDEs and scientific computing, *summa cum laude*. Master thesis entitled *Espaces de Sobolev par rapport à des mesures quelconques et application au transport optimal* under the supervision of Filippo Santambrogio.

RESEARCH EXPERIENCES

Visiting Student February–April 2018

MIT, Cambridge, USA

Working on the numerical simulation of geodesics and harmonic mappings valued in the Wasserstein space in the *Geometric Data Processing Group*, led by Justin Solomon.

Visiting Student Researcher February–July 2014

CalTech, Pasadena, USA

Study of the numerical instabilities due to the enforcement of boundary conditions in hyperbolic systems solvers, under the supervision of Oscar Bruno and Edwin Jimenez.

Research intern June–July 2013

CEA, Saclay, France

Experimental study of magnetization of small magnetic samples, under the supervision of Grégoire de Loubens.

TEACHING EXPERIENCES

Instructor January 2020–April 2020

UBC, Vancouver, Canada

Instructor for the course Math 340 "Introduction to Linear Programming" aimed at third year students.

Teaching assistant September 2016–June 2019

IUT d'Orsay, Orsay, France

IUT d'Orsay is an engineering school. Classes given to first year and second year students, including: calculus, linear algebra, computer science and statistics.

Oral examiner in *Classe Préparatoires* September 2013–March 2016

Lycée Louis le Grand, Paris, France

Giving weekly oral examinations in Mathematics to students in *Classes préparatoires*.

Mathematics and Physics teacher at *Tremplin* September 2012–February 2014

Paris, France

The association *Tremplin* provides academic support to students coming from underprivileged areas.

Diffusion of scientific culture

I have participated to the diffusion of the scientific culture in the Paris area by:

- giving, in 2015 and 2016, 4 conferences in High School;
- animating a robotic workshop during the summer 2015 in the *Palais de la découverte*, a science museum.

RESPONSABILITIES

Organization of a seminar

I have been co-organizing the regular seminar *Groupe de Travail en Calcul des Variations* which took place in Paris during the Academic year 2018/2019.

Reviewing

I have been a reviewer for the following journals: Information and Inference, Journal des Mathématiques Pures et Appliquées, Mathematical Modelling and Numerical Analysis, SIAM Journal on Control and Optimization, and SIAM Journal on Mathematical Analysis.
I also wrote 6 article reviews for MathScinet.

PUBLICATIONS

BEFORE THE PHD

[1] Hugo Lavenant, Vladimir Naletov, Olivier Klein, Grégoire De Loubens, Laura Casado, and José María De Teresa. Mechanical magnetometry of Cobalt nanospheres deposited by focused electron beam at the tip of ultra-soft cantilevers. *Nanofabrication*, 1.1 (2014).

PEER REVIEWED JOURNALS

TALKS

PRESENTATION IN A PEER REVIEWED CONFERENCE

1. SIGGRAPH Asia (Tokyo, Japan), December 2018.

INVITATIONS IN WORKSHOPS

2. Groupe de Travail en Calcul des Variations (Paris, France), May 2019.
3. ANR MAGA meeting (Nancy, France), December 2018.

CONTRIBUTED TALKS IN CONFERENCES AND WORKSHOPS

4. SIAM conference on analysis of PDE (La Quinta, United States), December 2019.
5. Workshop *People in Optimal Transport and Applications* (Cortona, Italy), June 2019.
6. PGMO days (Saclay, France), November 2018.
7. Oberwolfach seminar *Optimal Transport Theory and Hydrodynamics* (Oberwolfach, Germany), October 2018.
8. Workshop *An analyst, a probabilist and a geometer walk into a bar* (Cardiff, Wales), June 2018.

SEMINARS IN SCIENTIFIC INSTITUTIONS

9. Seminar of the INRIA MOKAPLAN team (Paris, France), May 2020.
10. Université de Strasbourg (Strasbourg, France), April 2020.
11. University of Alberta (Edmonton, Canada), October 2019.
12. University of British Columbia (Vancouver, Canada), September 2019.
13. Università di Pavia (Pavia, Italy), March 2019.
14. Tokyo Metropolitan University (Japan), December 2018.
15. Université Paris-Sud (Orsay, France), November 2018.
16. Université Paris-Sud (Orsay, France), May 2018.
17. University of California Los Angeles (Los Angeles, United States), April 2018.
18. New York University (New York, United States), March 2018.
19. Seminar of the INRIA MOKAPLAN team (Paris, France), May 2017.

PHD STUDENTS' SEMINAR

20. Université Pierre et Marie-Curie (Paris, France), May 2017.
21. Université Paris-Sud (Orsay, France), May 2017
22. Université Pierre et Marie-Curie (Paris, France), February 2017. (Physics PhD students' seminar)
